NOAAWatch is a website offering information about ongoing environmental events. NOAAWatch explains the role of NOAA in prediction, monitoring, and recovery from environmental hazards. It provides public access to current information on a number of environmental threats ranging from oil spills, to hurricanes and tsunamis, to space weather.

The National Hurricane Center normally issues public advisories on their website and to the media for Atlantic tropical cyclones every six hours at 5:00 AM EDT, 11:00 AM EDT, 5:00 PM EDT, and 11:00 PM EDT. Intermediate public advisories may be issued every 3 hours when coastal watches or warnings are in effect, and every 2 hours when coastal watches or warnings are in effect and land-based radars have identified a reliable storm center. Additionally, special public advisories may be issued at any time due to significant changes in warnings or in the cyclone.

NOAA Weather Radio

Not manufactured by NOAA, NWR receivers can be purchased at many retail outlets and on the internet

NOAA Weather Radio (NWR) All Hazards is a nationwide network of radio stations broadcasting continuous weather information directly from a nearby National Weather Service office. NWR broadcasts National Weather Service warnings, watches, forecasts, and other hazard information 24 hours a day.

162.400 MHz 162.425 MHz 162.450 MHz 162.475 MHz 162.500 MHz 162.525 MHz 162.550 MHz

A Personalized Travel Information Service

My Florida **511** is a free service of the Florida Department of Transportation. Travelers can dial **511** to access current information for specific routes and roadway segments, including:

- anticipated travel delays
- traffic accidents
- roadway blockages and lane closures.

When callers dial **511**, the service automatically connects to the most local **511** service available from the current location. However, you can transfer to other Florida area **511** services from any Florida location.

Through Florida **511**, callers will be able to receive information on all interstate roads across the state, including:

I-4, I-10, I-75, I-95, I-110, I-175,
I-195, I-275, I-295, I-375, I-395, I-595,
and Florida's Turnpike.

Callers can also transfer to a local **511** service for more detailed information and more road choices.

The My Florida **511** Website incorporates motion images from traffic cameras, e-mail alerts, public transportation information and customer feedback.

For more information, visit the My Florida Website at www.fl511.com
